Kirby Clark is an aspiring artist based in Arkansas. Heavily inspired by the portraiture works of Warhol, Kirby is working on mastering the craft of combining photography and figurative painting in their work.

Artist Statement

My goal with the artwork is to reflect and highlight the intimacy and beauty in fleeting moments. There is so much beauty and art happening all around us that we often overlook.

I am inspired by moments of tension and anticipation. Figurative art, Pop art, Portraiture, Photography, and Seriality are major influences on my work.
