Bio

Fayetteville Arkansas based artist Skye Compton has been honing her skills in digital art for the past year. Originally creating works on paper since she was a child, Skye's evolution into digital art allows her to better express herself. Her use of bold colors and negative space give a fresh twist to familiar subjects.

Artist Statement

My work explores ambiguous, figurative shapes with a limited color palette and compositions that evoke emotion. I'm fascinated with chunky lines, and creating things that are fun to look at.
