Bio

Aaron is a collage artist living in Fayetteville, Arkansas. When she is not creating art, she is teaching visual art and design to seventh through 12th grade students.

Artist Statement

My artwork is inspired by weird and wonderful music, travel, fashion, film, art, and people. I like to create detailed and inviting worlds that I would want to step into. I work in both the analog and digital realm, but creating collages by hand and using vintage ephemera truly fills my heart with joy!
