### **Bio**

I have been making photographs for over 15 years. I picked up my first camera in 2007 and have been at it since. I enjoy photographing life. I find awe in landscapes, be it in the inner city or on White Rock. Within the last year I have been focusing more on analog photography. Using my Mamiya RB67, I have been shooting medium format black and white images. Analog forces me to slow down and really feel the weight of each shutter click.

### **Artist Statement**

I can't draw. I have always been envious of people who can draw. I think that is what called me to photography, I use a tool that draws with light. I notice a scene and my camera does the work for me, I just know what numbers to dial into the contraption.
