Artist Statement

Anne's work focuses on the interconnectivity of all living beings. Combining established painting and photographic techniques with contemporary and gestural marks, her pieces explore concepts of self-realization, spirituality, reciprocity, and the human relationship with nature and earth. As her work evolves, she seeks to tell stories of the human condition and how they parallel in the natural world. Much of her inspiration comes from traveling both in the US and abroad. She is currently based in Bella Vista, Arkansas.
