## Cate McCoy

### Bio

Cate McCoy is a Fayetteville artist who works in a variety of mediums: including fiber, oils, and gouache.

### Artist Statement

Come with me as I explore the natural flora and fauna in our community through sculptural embroidery. The focus is the Ginkgo trees found in Wilson Park. These embroideries are created using a unique free motion embroidery technique that utilizes a domestic sewing machine and fabric that dissolves in water. The work brings awareness to the beauty of nature, sparking a sense of wonder and appreciation of our surroundings.
