## Patricia Moline

### Bio

I currently live and enjoy everything Fayetteville. I have lived in several locations including Wisconsin, Arizona & Missouri. For quick studies I prefer a limited pallet and small canvas. This helps to focus on just the fundamentals. For studio work I use large canvas and acrylics. My work has been included in several exhibits at Spiva in Joplin, Mo and The art Center of the Ozark's in Springdale. my work was featured in a solo show at Art Central in Carthage, Mo. and most recently in the Our Art Our Time exhibit at the Walton Art Center.

### Artist Statement

My favorite subject is nature. Here in Arkansas you can go anywhere and find nature putting on a show just waiting to be noticed. I usually carry a small water color pallet and papers for quick studies. The challenge is to break down the patterns, shapes and colors into a more minimalist scene. I'm most satisfied when I can achieve an easy carefree feel to the finished work.
