## Yevgeniya Nommesen

@nommesen

### Bio

Yevgeniya Nommesen has been an artist for as long as she can remember; exploring and thriving in mediums such as oils, charcoal, graphite, acrylic, pencil, and ink. In the past few years, art has become less of a practice and more of a form of worship to God, the original artist. Incorporating spiritual themes is commonplace in Nommesen's work as she continues to explore her inner identity as well as her artistic one.

### Artist Statement

Yevgeniya Nommesen is ever growing in her use of mediums- including acrylic, oil, watercolor, ink, pencil, and fibers (knitting, crochet, sewing). She practices translating the mundane through art by giving interest to everyday settings and objects.
