Local Fayetteville artis, Marietta Camillieri has studied Fibers and Sculpture at Kansas City Art Insitute and recieved her BFA in 1984.

She cusrrently studies Sculpture at the U of A since 2019.

### **Artist Statement**

When I make art I usually have a message. Sometimes the message is about bringing awareness about the environment or current world issues but I mostly want to bring joy and peace. I want to remind us of the beauty around and in us all.

I have been compelled to create with many years of experience of developing these methods to best communicate myself as an artist. What an oppportunity to tap into the creative realm but more importantly Art can be a way to document history in real time to show our present and future generations. It invokes emotion, passion or just what is inside me and I hope I channel to the viewer.
