Bio

Leon Niehues is a studio basket maker and wood sculpture artist living and working in Huntsville, AR. In 40 plus years he has exhibited widely throughout the United States.

Artist Statement

I use traditional materials and techniques, often combining them with new ideas and methods of construction. I have also introduced new materials such as 3-M emery cloth, paint, brass and stainless mini machine screws. I hope my work is interesting to the viewer because it is both old and new at the same time.
